

Challenge: It's in the Bag!

How many bags (paper and plastic) does your family bring home from ALL stores in a week?

How it works:

1. If there are days you don't bring home any bags, record a "0" for those days.
2. If your groceries are double-bagged, count both bags.
3. Be sure to count every bag (small and large, paper and plastic).
4. Don't count any paper or plastic bags that your family re-used.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Total

Don't Forget: Bring this worksheet back for the next week of the Eco-Teams program!

Printed on paper made with 30% post-consumer recycled fiber
